HIGH SPEED OVENS

WELCOME TO PRÁTICA

Prática Klímaquip SA, founded in 1991, is the leading manufacturer of food service and bakery equipment in South America. Since 2007 Prática has been engineering and manufacturing Speed Ovens.

The company has over 500 employees, 40 of them in Research & Development, and a 250.000 square foot state-of-the-art engineering and manufacturing facility. Prática has its headquarter located in Minas Gerais, Brazil. It also has representatives and distributors on all continents and in each location it is equipped with experienced teams that provide services, sales, products, parts and support to its customers.

SPEED OVENS

Prática's speed ovens are ultra-fast, high-performing ovens used for preparing, and finishing, fresh, refrigerated, or frozen foods. Each use results in excellent appearance, crunchiness, and taste.

With cutting edge technology, the ovens work with multiple heat sources, such as, impinged hot air, microwave, and direct radiation. They are equipped with a ventless system through an easily removable catalytic converter and requires no extraction hood for operation, making it easy to clean and maintain.

With a friendly touch screen interface, Prática speed ovens have easy operation and quick preparations, are ideal for service with agility and quality.

Forza STi

Forza STi Double Stacked

- Secures consistent results under continuous repetitive operation
- Works with any kind of pizza: fresh, frozen, pre-cooked, thin or thick crust and pan pizzas up to 40cm (16") in size
- Unique airflow distribution system: guarantees a consistent distribution of hot air through the cooking chamber, resulting in perfect browning throughout the cooking process
- Ability to operate at elevated cavity temperatures (up to 330°C / 626°F) to achieve professional results with many fresh dough items
- Fits a half-size sheet pan
- Capable of storing up 1024 different recipe settings, allowing operators to run a cycle, stop, add new ingredients, and continue cooking when needed
- Touchscreen display with intuitive and multi-language software, making it easy to set up, operate, and create recipes
- USB loading capabilities for programming and sharing settings between ovens
- Catalytic converter filter technology allows the oven to operate in any indoor area without the use of a hood
- Easy access to the removable catalytic converter that allows cleaning and maintenance to be performed by the end-user
- Exterior, cool to the touch

KNOW MORE

USER-FRIENDLY FEATURES

Available on all Express Line models

REMOVABLE CATALYST

Easy access and removal of the catalytic converter.

REMOVABLE AIR FILTER

Designed for simple cleaning and maintenance.

BACK PANEL

MINIMAL CLEARANCE

Advance cooling design eliminates side vents and louvers allowing minimal to zero side clearance.

VENTLESS OPERATION

Pratica's Express Line ovens are equipped with a catalytic converter that eliminates grease laden vapors before they escape the oven. These ovens have passed the EPA 202 test, and are certified as non-grease emitting appliances. When following proper installation and operation procedures, Pratica's ovens can be fully operational without the use of a Type I or Type II hood.*

*Ventless cooking operation supported with the exception of foods classified as 'raw fatty proteins', such as bone-in, skin-on chicken, raw bacon, raw hamburger, etc.
